**NEW IN BRUSSELS !!!
since the 1st of September 2015 !!!**

Evangelische basisschool
(Protestant-Christian Primary School)

Our mission

The school 'The Treasure Chest' in Brussels aims to provide high standard primary school education, flowing from a Christian identity, with the Bible as its measure.

De Schatkist: een school vol schatten (The Treasure Chest: a school full of treasures)

The name of our school emphasizes the value of the children, the Bible and of that which they discover and learn together.

Subsidized free primary school

- **Subsidized:** the Flemish Community funds our staff and day to day functioning. The school follows the development and final attainment levels (ontwikkelingsdoelen en eindtermen) the Flemish Government dictates.
- **Free:** comparable to Catholic schools: our faith colors all school life and we give Bible lessons (protestant-evangelical religion education, recognized by PEGO).
- **Primary School:** for children from 2,5 to 12 years.

Education in the Dutch Language

Education and communication are in Dutch.

"School with the Bible"

Together with 7 existing schools it will be a member of the education umbrella of IPCO (*Board of Trustees for Protestant Education in Flanders and the Capital District of Brussels*).

These schools are founded by an NPO of involved teachers, parents and friends. They have a unique education statement which is rooted in the Bible.

Our education statement (summary)

Inspiring Scripture Text: Ephesians 3:16-19.

The children are our **treasures**. We love them and enjoy the talents and personality the Creator has laid in them.

In the Treasure Chest, children will discover the riches of a life spent in God's presence, **connected** to others, their environment and themselves. We believe that children, from a very early age on, can have a personal faith, a living **relationship with God**, a love for the Bible and an honest desire to apply God's will in their daily life. There is room for **character building** and the passing on of **God's timeless truths**. In that way they will grow into young men and women, anchored in Christ, who take up their responsibility and are a blessing to others.

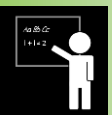

We consider **the environment** in which the children grow up: their home situation as well as the society we live in.

We strive to offer **high quality** education. We offer the subject matter in a varied and captivating manner. We stimulate the total development and creativity of each child. We learn from and with each other. The children grow in independence and learn to persevere.

We strive for an environment where lots of **warmth and love** go hand in hand with clear **boundaries and discipline**.

Teachers and board members live according to their own **Christian convictions** and they are a living testimony to the children. They are characterized by faith, hope and love.

We want to give the children optimal chances to learn to (better) master the **Dutch language**.

Our school's main target group

The main target group will be children from Christian families, without making the distinction between church denomination, culture or language. Besides that, the school reaches out to people from other faiths that can subscribe to our vision.

Getting your child(ren) registered

In September 2016, we will have a limited amount of classes (kleuterklas, 1^{ste} - 2^{de} - 3^{de} leerjaar) and yearly extend with one class.
